Experience

Data Engineering Lead / Data Scientist

Tata Consultancy Services Ltd., Hyderabad – 2014-Present

Client : Citibank

- **Leading a global team of Data Engineers to devise strategies to implement Business Use cases on Google Cloud Platform**
- **Headed the MLOps Team to implement ML Models for various Customer centric Personalisation Initiatives**
- Contributed to building a strong ML Engineering team that has built and productionized more than 60 analytical models across 10 countries.
- Instrumental in securing multiple projects for TCS related to ML/AI and Data engineering areas
- Designed a Real-time, deep learning Model (ANN Keras using Tensorflow) for predicting Customer Call Reason prediction to Bank's IVR Platform.
- Designed an in-house application that provides Model-As-A-Service (MaaS) Platform to Data Scientists for faster implementation of analytical models.
- **Headed the Data Engineering team in successfully building a Big Data Lake on Cloudera.**
- Participated in multiple proposals related to Data Quality and Data Governance
- Formulated Design patterns around creation of optimal Data pipelines for both Batch and Real-time Data ingestion processes into a Data Lake.
- Optimised data transformations by building multiple accelerators / artefacts using various ETL tools / programming languages.
- Designed a generic ETL framework to populate a data store required for CCAR Reporting
- Designed a dashboard to track system activities at real time in production servers.
- Mentored multiple resources in Big Data technologies by facilitating training sessions and devising hands-on labs

ETL Designer

Infosys Ltd., Hyderabad – 2010-2013

Client : Standard Bank

- Implement applications dealing with Regulatory requirements across multiple countries using Data stage.
- Data Modeller for an Operational Data Store (ODS) application

ETL Developer

Tata Consultancy Services Ltd., Chennai – 2006-2010

Client : Nielsen

- Build data pipelines using ETL Tools and/or SQL as part of building central data warehouse

Certifications

- ✓ **Certified Professional Machine Learning Engineer (06/2021) - Google Cloud**
- ✓ Deep Learning with TensorFlow 2.0 (03/2020) - Udemy
- ✓ Data Science Specialisation (10/2016) - Coursera
- ✓ Natural Language Processing using TensorFlow (04/2020) - Coursera

Education

Bachelor of Engineering

Birla Institute of Technology & Science (BITS), Pilani

2002 - 2006
